

Leading Outstanding Schools: Cohort P (May 2016)

Programme overview

A unique opportunity to discover national best practice, delegates will explore how the country's leading outstanding schools achieve success, focusing on the stages and strategies in the journey to outstanding. Outstanding schools provide outstanding teaching, rich opportunities for learning and they invest in their staff and communities. SSAT's Leading Outstanding Schools programme will consider key areas of school improvement and transformation and discuss key themes in the current educational landscape.

Benefits

- Learn new strategies and inspire your practice to outstanding and beyond.
- Develop your own school vision through visiting leading schools and academies to see best practice in action.
- Network with like-minded colleagues and share school improvement strategies.

'This is the best CPD I have had in a long time and very difficult to arrange individually. It has impacted on my developmental planning discussions with colleagues, decisions about my own leadership and given me confidence about the type of leader I am and want to be. I have thoroughly enjoyed the programme which has left me inspired and provided a range of valuable opportunities to explore leadership in different contexts. The travelling time home has provided me with such valuable headspace to consolidate the learning and myriad of thoughts and ideas generated by each event.'
