

SSAT Middle Leadership

Develop and inspire your middle leaders: the driving force of school improvement

Middle leaders are essential for a self-improving system. What they do varies across a range of responsibilities between school types, phases and contexts. We embrace this diversity and complexity and are committed to supporting all schools with our middle leadership training options.

Tailored SSAT Middle Leadership training delivered in your school by expert facilitators

This is ideal for groups of middle leaders who have specified areas of development that need to be addressed quickly. Choose from 11 middle leadership modules, all designed to support middle leaders to develop their practice, including immediately applicable strategies for improvement:

- ▶ Vision, values and the moral purpose
- ▶ Data analysis for performance and progress
- ▶ Leading strategic improvement
- ▶ Evidence-based teaching and learning
- ▶ Developing your leadership approach
- ▶ Leading and managing innovation and change
- ▶ Managing resources and risks
- ▶ Building a high-performance team
- ▶ Support and challenge – holding yourself and others to account
- ▶ Developing yourself and others
- ▶ Collaboration, partnership and communication

SSAT Middle Leadership

Deliver the Department for Education's (DfE) National Professional Qualification for Middle Leadership (NPQML)

SSAT is proud to have been accredited as a NPQML provider by the DfE. By becoming one of our delivery partners, you will have the flexibility to deliver the NPQML across your school, networks and beyond. You can also choose to deliver a smaller number of modules to meet the specific needs of your school, trust or alliance. Either way, you will have the tools and resources to offer middle leadership training and generate income at the same time.

The NPQML will focus on the essentials that transcend good middle leadership in all setting, while allowing for contextualisation and particularisation. We will develop and support you as school-based facilitators through a train-the-trainer programme.
