

Leading and managing numeracy across the curriculum

Develop a transformational numeracy strategy across your school

Leading and managing numeracy across the curriculum is a practical step-by-step guide, produced in partnership with the National Mathematics Partnership (NMP). It contains successful strategies and approaches to managing numeracy across your school, presented in booklet and CD-ROM format.

What's included?

- ▶ Initiatives for challenging and developing your existing ethos
- ▶ Guidance for developing a sustainable and effective numeracy strategy
- ▶ Successful practice and pedagogy
- ▶ Tips on how to raise the profile of numeracy development
- ▶ Resources and tools for training and staff development
- ▶ Monitoring and evaluation – including guidance for lesson observation.
