**Where more evidence has been requested by the moderator in order to be able to make their final assessment, you will have ten working days to add any additional evidence and resubmit your application if you wish final moderation to take place within the same gateway. If you are unable to provide the additional evidence requested within this time period your application will automatically be deferred to the following gateway and you will then have until the deadline for submissions for the next moderation gateway to make any necessary amendments and resubmit. In the event that you have not done so by this deadline, final moderation will take place as it stands at that point in time.**
