SSAT Teacher Effectiveness Enhancement Programme (TEEP)

Reinvigorate teaching and learning right across your school and improve outcomes

The October 2016 independent report from CUREE (Centre for the Use of Research and Evidence in Education), focusing on TEEP implementation in schools with a high number of disadvantaged students, provides robust evidence of the positive impact of the TEEP programme.

Their findings include:

- TEEP acts as a common framework, providing a consistency of language across schools, enhancing best practice
- TEEP has a beneficial impact on teacher motivation and morale.
- Staff become more focused on the actual learning taking place with improvements in teaching and learning

Following the recent research review and development of the model, TEEP Level one can now be accessed online using a training portal that **provides synchronous and asynchronous professional learning** sessions over a six-week period, a full suite of resources for further reading and the guidance of highly experienced TEEP lead trainers as course facilitators.

The course design has been carefully considered to **minimise disruption** to school timetables and teachers' preferred ways of working, whilst providing rigorous professional learning.

Highlighted as effective practice by the **Education Endowment Foundation's Rapid Evidence Assessment: Remote Professional Development**, the TEEP Online programme includes:

- live sessions with a TEEP trainer who will also facilitate professional learning throughout
- a variety of different media activities and resource
- opportunities for discussion with colleagues on and offline
- collaborative activities in small and larger groups for collective problem solving
- development of a portfolio of reflective practice.
